The application has been amended as follows:

In claim 1, line 4, "the head tube" has been changed to –a head tube-. In line 7, "a head tube" has been changed to –the head tube-.

2. The following is an examiner's statement of reasons for allowance: Savolainen

and Best each show a folding bicycle with a single prong front fork, but they lack two support levers with first and second pressing and locking members. Harris shows a bicycle with a support tube (lower part of F), a rear fork, and two support levers L1, L2, but it lacks locking and pressing members to fix the levers in place. Buckler shows a folding bicycle with a head tube, support tube 86, adjustable seat support 88, and two support levers 70, 80, but it lacks a rear fork configured as claimed and locking and pressing members for the support levers. None of the prior art of record teaches the overall combination.
